

Why Agile Fails

Chris Nelson
Ed Sumerfield

We are NOT
talking about

FEAR

Trust

Change is scary

Beginning

Middle

End

Beginning

Misconceptions

Beginning

No
Documentation?

Allows
Changes?

Plans Changing?

Losing Control

Costs Skyrocket?

What Budget?

Too many
Features?

Beginning

But we can't possibly
do that at *our* company

Beginning

Programmers

Middle

Change Roles

Break Habits

Measuring the
wrong thing

Middle

Non-essential
complexity

End

Giving up

End

It's really hard

It's worth it

Your turn!
